Phambi Kokuba Uqale

Ukulungiselela Ukufundisa Isifundo

1. Funda isiKhokelo soMfundisi ngononophelo, amaxesha amaninzi ukuba kunokwenzeka. Gxininisa okanye ubhale amanqaku emacaleni ephepha ukuze uzikhumbuze ngeengongoma ezibalulekileyo.
2. Jonga kwiingcamango eziphambili kwisifundo ngasinye ukuze wazi ukuba abafundi kufuneka bafunde ntoni kwisifundo.
3. Funda zonke izibhalo ezingcwele ngaphambili.
4. Jonga ukuze ubone ukuba yeyiphi imathiriyeli efunekayo kwisifundo ngasinye kwaye uqinisekise ukuba wenza iikopi zeziKhokelo zaBafundi (izinikezelo) kwaye wenze iZincedisi eziBonakalayo ezisetyenziswa kwisifundo. Unokukhetha ukunika iikopi zeSikhokelo soMfundisi sisonke kumthathi-nxaxheba ngamnye okanye icawe okanye wenze inani elincinane leekopi njengoko kucetyisiwe kwisifundo ngasinye. Ukuba awusisebenzisi iSikhokelo soMfundisi, ungabhala iivesi kunye nemibuzo kwibhodi emhlophe okanye ipowusta okanye ubhale iivesi kumaphetshana amancinane kwiqela ngalinye.
5. Qinisekisa ukuba uqhelene nomsebenzi ngamnye kwisifundo (indima yendima, imidlalo, izixhobo ezibonwayo). Unokuziqhelanisa nosapho okanye abahlobo bakho.
6. Thatha ixesha lokuthandaza ukuba uThixo alungiselele abafundi, ukuba abafundi beve oko uThixo afuna bakuve, kwaye ukuba akuncede ufundise izixhobo. Khumbula ukuba kungenxa yamandla kaThixo kuphela apho siya kubona abantu beguquka.

Amacebiso Aluncedo Ekufundiseni Okusebenzayo

1. Fika kwangethuba kwaye usete imathiriyeli yakho kunye nendawo oya kuyisebenzisa.
2. Musa ukukhawuleza kwizinto eziphathekayo. Cwangcisa ixesha elaneleyo lengxoxo, imisebenzi kunye nekhefu. Injongo kukuba abantu babe nexesha lokuqonda kunye nokubandakanyeka kwinkqubo yokufunda. Hamba ngesantya ukusuka kwisihloko ukuya kwisihloko esiqinisekisa ukuba wonke umntu uyaqonda.
3. Phinda ujonge rhoqo. Ekuqaleni kweseshoni nganye iklasi mayiphonononge konke abakufundileyo ukuza kuthi ga ngoku kwimodyuli yoqeqesho. Ukuphindaphinda kunceda abantu bakhumbule oko bakufundileyo.
4. Landela iSikhokelo soMfundisi kunye namanqaku akho okulungiselela.
5. Qinisekisa ukuba ubandakanya zonke iinxalenye ezi-4 zesifundo ngasinye.
 - a. Yazisa ngesihloko – Imisebenzi iya kudibanisa isihloko kumava abo angaphambili.
 - b. Nika ulwazi olutsha – Zininzi iindlela zokwabelana ngolwazi olutsha.
 - c. Nika abafundi into enokuyenza malunga noko bakufundileyo – Imisebenzi ibavumela ukuba baqonde ngcono ulwazi ngokusebenzisana nabanye, ukudala into ethile, okanye ukusebenzisa ulwazi olutsha ngandlela-thile.
 - d. Qhagamshela ulwazi kubomi babo – Eli linyathelo lesicelo elinceda umfundi ukuba enze isigqibo ngeendlela ezithile abaza kusebenzisa ngazo ulwazi olutsha alufundileyo ebomini babo. Ukufunda ngaphandle kwesicelo akuvelisi utshintsho kwaye akuluncedo kakhulu.
6. Phonononga imigaqo yakho yokufunda yabantu abadala kunye nezinye izakhono ezifundiswe kuQeqesho loPhuhliso loMququzeleli.
 - a. Nika imiyalelo ecacileyo
 - b. Buza imibuzo emininzi evulelekileyo (imibuzo efuna impendulo engaphezulu kuka ewe/hayi)
 - c. Bulela abantu ngenxaxheba yabo
 - d. Musa ukuxelela abantu into abanokuyifunda ngcono ngokufumanisa
 - e. Yakhela phezu koko abantu sele bekwazi kwaye uqaphele amava abo

- f. Yiba nomonde kwaye ulindele ukuba abantu baphendule
- 7. Khuthaza wonke umntu ukuba athathe inxaxheba, abelane kwaye abe negalelo kwiingxoxo. Fumana iindlela zokukhuthaza ngobubele abantu abaneentloni ukuba bathathe inxaxheba ngaphandle kokubenza babe neentloni.
- 8. Thandaza imini yonke ukuba uThixo atyhile izinto ezintsha kuwe nakubafundi.

Usisebenzisa njani esi Sikhokelo Somfundisi

1. **Izimvo eziphambili kunye neMathiriyeli:** Isifundo ngasinye siqala ngeli candelo.
 - a. **Izimvo eziphambili** – Ezi zezona ngcamango zibalulekileyo ekufuneka abafundi baziqonde ngokucacileyo ekupheleni kwesifundo ngasinye. Ekupheleni kwesifundo thatha ixesha lokuphonononga kwaye uqinisekise ukuba abafundi bayayiqonda le mibono.
 - b. **Iimathiriyali** - Izixhobo ezithile ezifunekayo zidweliswe kwisifundo ngasinye.
 - c. Esi Sikhokelo soMfundisi siya kubonisa ukuba zisetyenziswe nini na ezi:
 - i. **IZIKHOKHELI ZABAFUNDI** – iya kubhalwa ngolu hlobo.
 - ii. **IZIBONISI EZIBONWAYO** – iya kubhalwa ngolu hlobo.
2. **Imiyalelo yoMququzeleli:** Kukho imiyalelo ekhethekileyo kwisifundo ukukunceda ukuba ukhokele uqeqesho kakuhle. Ezi azenzelwanga ukuba kwabelwane ngazo nabafundi. Funda oku kwangaphambili ukuze ulungele ukukhokela iingxoxo kunye nemisebenzi. Eminye imibuzo iya kuba neempendulo ezibhalwe ithalikh okanye kekeleyo ukukunceda njengombhexeshi wazi ukuba zeziphi na iingcamango onokuzigxininisa kunye nabafundi. Ezi ayizizo kuphela iimpendulo ezilungileyo, zezinye iimpendulo ezilungileyo.
3. **Ukulawula amaXesha eXesha kunye nenqubekela phambili:** Amaxesha amisiweyo awaqukwanga kwisifundo ngasinye.
 - a. Thatha ixesha elininzi njengoko lifunekayo ukunceda abantu bafunde imibono kwisifundo. Kubaluleke ngakumbi ukuxhalabela oko abantu bakufundayo kunokusigqiba isifundo ngexesha elimiselweyo.
 - b. Khumbula ukushiya ixesha lokuba ababhexeshi baqale ngemithandazo, babelane ngobungqina, baxoxe ngazo naziphi na iingxaki abanazo, kwaye bathandaze kunye.

Isifundo 1: Ngaba Siyatshintshwa?

Olona luvo

NjengamaKristu ubomi bethu bufanele butshintshwe njengoko sihamba ekuthobeleni uThixo.

Izinto Ezifunekayo

Akukho nanye.

Intshayelelo

Imiyalelo yoMququzeleli: Funda la mabali alandelayo.

Ibali 1: Umfazi Womfundisi

KuMzantsi Asia, kwakukho inkosikazi yomfundisi owayethanda uThixo nowayefuna ukukhonza uluntu. Njengendlela yokunceda abamelwane bakhe, wayeqhomfa. 'Ngapha koko,' waqiqa ngelithi, 'ukuba umfazi unabantwana abasi-8 yaye akakwazi ukubondla, ngaba ukuqhomfa kowesi-9 akuyondlela yokunceda?'

Ibali 2: Isixeko CaseU.S

IMpuma St. Louis yidolophu enabantu abamalunga nama-25 000 eUnited States. Kukho iicawa ezingama-59 kwidolophu encinci, kwaye uninzi lwabantu lungamaKristu. Kodwa ukususela ngo-2000-2020, i-East St. Louis yayinelinye lawona mazinga aphakamileyo obundlobongela—kunye nelona zinga liphezulu lokubulala—yayo nayiphi na idolophu okanye idolophu eMelika.

Ibali 3: Uluntu Lwasemlanjeni

KuMlambo iAmazon, kukho iindawo ezininzi ezikwanti ekunokufikelelwa kuzo kuphela ngamaphenyane. Kwiminyaka emininzi eyadlulayo, kwakungekho maKristu aziwayo kwezi ndawo. Bandula ke abavangeli basemazweni beza kwezi ndawo, bashumayela, baza abantu basindiswa. Abavangeli basemazweni babedla ngokuhlala okwethutyana, batyale icawa, baze badlulele kwindawo elandelayo emazantsi omlambo. Ngoku kwakwiindawo ezikwanti, kukho amaKristu kuwo wonke umlambo, kodwa bonke abantu basekuhlaleni bangamahlwempu. Iintsapho azifumani kutya kwaneleyo. Enye indlela iintsapho ezifumana ngayo imali kukuqesha iintombi zabo njengoonongogo xa zineminyaka elishumi elinesibini okanye ishumi elinesithathu kuphela. Ootata benza iintombi zabo zifumaneke kubantu abazizityebi ekuhlaleni. Ootata abangamaKristu nabo benza into efanayo—baqeshisa ngeentombi zabo ukuze bafumane imali.

- Kwenzeke ntoni kwibali ngalinye kula?
- Ngaba la mabali ayothusa okanye akunjalo? Kutheni bemangalisa nje?
- Ucinga ukuba uThixo uvakalelwa njani ngezi meko? Ngoba?

Ibali 4: Ilali yaseNtabeni

Kwakukho ilali encinane ezintabeni. Yayikwindawo ehlwempuzekileyo yesizwe yaye abantu babephila ubomi obulula kakhulu. Babengenakutya kwaneleyo. Babexhomekeke kwimozulu ukuze baqonde indlela unyaka ngamnye owawuza kuba ngayo—ngaba kwakuza kwanela, okanye ngaba kwakuzo kunqongophala? Babengenazo izindlu zangasese kwaye behlala kwizindlu nje zamaxabiso aphantsi. Babengengabantu abonwabileyo kodwa babewusebenza nzima umhlabeni, betsala nzima unyaka nonyaka. Kwiminyaka engamashumi amathathu eyadlulayo, abavangeli basemazweni baqala ukuza kulo mmandla baza babaxelela ngoKristu. Njengoko babephulaphule yaye beqonda baqalisa ukukholelwa, ibe abaninzi baba ngamaKristu. Abavangeli basemazweni banceda abantu baloo ngingqi batyala iicawa. Abantu babesiya rhoqo

Abavangeli basemazweni bayishiya loo ndawo kwaye icawa yaqhubeka phantsi kweenkokeli zasekuhlaleni. Kwiminyaka engamashumi amathathu kamva, icawa yayisele ikhulile, yaye abantu babezimisele ukuhlanganisana kunye. Noko ke, ilali yayifana ncam. Babesahlwempuzeke gqitha, yaye babesaxhomekeke kwimozulu ukuze babone enoba babeza kulamba okanye babenokutya okwaneleyo na ngaloo nyaka. Kwakungekabikho izindlu zangasese kwindawo yabo. Kwakukuncinci kakhulu okutshintshileyo.

- Ngandlel’ ithile, ibali lokugqibela alibonakali lisothusa njengamabali ama-3 okuqala kuba liqhelekile. Kodwa kufana nje namanye amabali: ngelixa abantu babeguquka ezonweni zabo baze babize uYesu ngokuba nguMsindisi wabo, ubomi babo babungekaguquki. UThixo ufuna ubomi bethu bahluke emhlabeni, kungekhona ezulwini kuphela.

INGXOXO YEQELA ELINCINANE

- Kwabase Efese 2:8-9
- Kwabase Galati 2:15-16

Ngamanye amaxesha abantu bacinga ukuba indlela esisindiswa ngayo zizenzo zethu—kufuneka senze yonke into ngokufanelekileyo size sisindiswe. Kodwa simele sikhumbule ukuba, usindiso lwethu sisipho esivela kuThixo. Siyifumana ngokuba nokholo kuYesu. Emva kokufumana esi sipho sixabisekileyo, sinoxabiso kangangokuba sifuna ukusabela ngokuthobela uThixo. Yindlela esibonisa ngayo uthando lwethu kuThixo. Asiyondlela yokusindiswa.

- Ubuya kuvakalelwa njani ngomntu okunike esi siph? Ubuya kubaphatha njani?

- Ucinga ukuba sifanele simphathe njani uThixo, sisazi isipho esikhulu asiphe sona?

Kwimodyuli yokugqibela sithethe ngento yokuba, xa uthenga into entsha, iza nencwadi yemiyalelo. Ukuba sifuna ukufumana okona kulungileyo kuloo mveliso ke kufuneka sifunde incwadana yemigaqo. Mhlawumbi singenza

kakuhle ngaphandle kokufunda le ncwadana, kodwa abo bathatha ixesha lokufunda le ncwadana baya kwazi malunga nazo zonke iimpawu, kwaye imveliso iya kuhlala ixesha elide kuba beyazi indlela yokunyamekela.

Ngokufanayo uThixo wadala umhlaba yaye uyayazi indlela yokuphila kuwo kakuhle. Wasinika umthetho wokuba ungasithinteli okanye usenze singonwabi. Uyasithanda. Kodwa wasinika umthetho ukuze siphumelele.

Makhe sijonge eminye yemithetho esiyinikwe nguThixo eBhayibhileni – ucinga ukuba ubomi bethu buya kuba ngcono okanye bubi ukuba asiyithobeli le miyalelo?

Imiyalelo yoMbhexeshi: *Njengoko ufunda imizekelo nganye kule ivumela iklasi ukuba inike uluvo lwayo*

- Sukubawela (Ukuba siyabawela, ubomi bethu abuyi kuba nolonwabo; siya kuhlala silangazelela into ethile kwaye singaneliseki zizinto uThixo asinike zona.)
- Musa ukubulala (Ukuba siyabulala, kuya kubakho isiphithiphithi kunye nokungathembani phakathi kwabantu; asiya kukhuseleka— singaba ngabolandelayo abaza kubulawa.)
- Musa ukukrexeza (Ukrexezo luphelisa ukuthembana emtshatweni.)
- Ungebi (Kwakhona kungaqhambuka isiphithiphithi ukuba wonke umntu ebe omnye komnye.)
- Mthande uThixo ngentliziyo, ngomphefumlo, ngamandla nangengqondo iphela. (Oku kwenza ubomi bethu bube bhelele. Sadalelwa ukuba sibe nolwalamano noThixo—sinokuphethukela kuye ngamaxesha obunzima, sinezithembiso zakhe zokumthamba, siyazi ukuba nokuba zimbi kangakanani na asisodwa kuba uThixo uyasithanda nathi kwaye unathi.)
- Mthande ummelwane wakho njengoko uzithanda ngako (Khawube nomfanekiso-ngqondweni wendawo apho wonke umntu ngamnye wayethobela.)

Ke siyabona ukuba sisindiswe ngobabalo ngokukholwa kuYesu. Ukuthobela akusizuzisi usindiso, kodwa sithobela ngothando nombulelo ngosindiso lwethu. Njengoko sithobela, siya kuchuma. UThixo akaze athembise ukuba abo basindisiweyo nabaphila ngokufanelekileyo baya kuphila ubomi obulula. Kodwa uthembisa ukusebenzisa kwanobunzima kwinjongo yakhe elungileyo.

Imithetho kaThixo

INGXOXO YEQELA ELIKHULU OKANYE ELINCINANE

Funda iDuteronomi 30:11-20.

- UThixo uyichaza njani imithetho yakhe? Ngaba zinzima okanye zilula?
- Kwindinyana ye-15 zeziphi iindlela esinokukhetha kuzo? Ungathanda ntoni?
- Yintoni ezisa ubomi nentsikelelo? (v.16)
- Yintoni ezisa ukufa neziqalekiso? (v.17-18)
- Yintoni uThixo afuna siyikhethe? (v.19)

Funda iDuteronomi 28:1-14.

- Kwenzeka ntoni xa sithobela imithetho kaThixo?
- Ngaba ezi zithembiso zobomi emva kokufa okanye kubomi bethu basemhlabeni?

Funda iDuteronomi 28:15-19.

- Kwenzeka ntoni xa singayithobeli imithetho kaThixo?

UThixo wenze imithetho emininzi esixelela indlela esimele siphile ngayo. Kukho imithetho yokuziphatha elawula ukulunga komntu. Umzekelo ngulo, ‘Uze ungakrexezi.’ Yaye kukho imithetho yendalo okanye yendalo elawula izinto esizibonayo. Umzekelo, suku ngalunye luneeyure ezingama-24 kwaye isityalo sifuna amanzi ukuze sikhule.

Njengoko sithobela imithetho kaThixo, siya kububona ubomi bethu buphucuka. Kufuneka siyiqonde le mithetho size siqalise ukuyisebenzisa ebomini bethu. Xa sisenjenjalo, siya kubona uThixo esikelela ubomi bethu.

Utshintsho eFiji

Imiyalelo yoMququzeleli: Funda eli bali lilandelayo malunga neFiji okanye, ukuba unexesha kunye nobuchule, unokukhetha ukubonisa ividiyo yemizuzu emi-5 yoTshintsho eFiji (<https://www.sentinelgroup.org/let-the-sea-resound#Doc-Inqwelwana>).

Njengoko umamele ibali, cinga ngendlela yokuphendula le mibuzo ilandelayo:

1. Ziziphi ezinye zeendlela abantu abaqalisa ngazo ukuthobela uThixo?
2. Ziziphi ezinye zeendlela ababona ngazo uThixo ebasikelela?

Ibali loTshintsho lweFiji

IFiji lilizwe elenziwe ziziqithi ezingama-322. Yindawo entle apho abantu abaninzi abadumileyo besiya kwiholide. Uninzi lwengeniso yesizwe ivela kubakhenkethi. Kukho abantu abangama-900 000 abahlala eFiji. Isiqingatha sabo bangamaFiji bomthonyama; phantse amashumi amane ekhulwini aphuma kubasebenzi baseIndiya abaziswe eFiji ngumkoloni waseBritani. Amaqela amabini awahlali evana.

NgoMeyi 2000, kwabakho ubhukuqo-mbuso. Urhulumente wathinjwa, yaye amagosa karhulumente abanjwa ekhonjwe ngempu kangangeentsuku ezingama-56. Kwakukho uqhushululu ezitratweni, yaye abantu babebulalana. Amajoni ahlaselana. Abakhenkethi bayeka ukuza, kangangokuba abantu abaninzi baphulukana nemivuzo yabo. Nasemva kokuba amalungu karhulumente ekhululwe, ilizwe lalisenesiphithiphithi.

Ngaphambi kweli xesha, iicawa zaseFiji zazingasebenzi kunye okanye zinciphisa. Endaweni yoko bakhuphisana bodwa. Kodwa kwathi kwabakho ubhukuqo-mbuso, iicawe zaqonda ukuba kufuneka zidibane ukuze zithandazele isizwe sazo. Xa balungiselela intlanganisano yokuqala, babengazi ukuba kwakuza kubakho bani na, kodwa igumbi lalizele ziinkokeli zecawa. Abefundisi baqonda ukuba, ukuba bafuna uThixo asikelele uhlanga lwabo, bamele basebenze kunye baze bamanyane emthandazweni. Oku kwakhokelela kwintsebenziswano entsha: Umbutho weeCawa zamaKristu.

NgoJulayi 2001 amaKristu asuka kulo lonke ilizwe ahlanganisana ukuze athandaze kunye nemfundiso yeBhayibhile. Ekupheleni kwexesha, iNkulumbuso ebambelelo yathandaza. Wacela uThixo ukuba amxolele aze amkhokele ukuze amhlonele uThixo. Kungekudala emva koko, waba yiNkulumbuso yaseFiji waza wakhangelela ezinye iinkokeli ezihlonel' uThixo ukuba zikhonze kunye naye.

Kudala, iFiji yayisaziwa ngobugqwirha nobuzimuzimu. Bade batheza iinkuni zokubasa ukuze bazoje imizimba yabo. Eli xesha lidlulelo—kunye noqheliselo oluqhubekayo lobugqwirha—lushiye iziqalekiso ezilalini. Kwakukho izigulo ezimangalisayo nokufa. Kwezinye iindawo izityalo okanye iziqhamo zazingakhuli. Kwezinye iindawo, kwakungekho ntlanzi yayinokuhlala emanzini.

Enye ilali yayidume ngokulima iziyobisi. Umhlobo womphathi weziyobisi kuloo mmandla wagula waza woyika ukuba uza kufa. Kodwa abahlobo bakhe bamsa ecaweni ukuze athandazelwe. Waphiliswa waza wanikela ubomi bakhe kuYesu. Bathi abantu baloo dolophana bakukuva oko kwenzekileyo, nabo bafuna ukulandela uYesu. Baqala baqonda ukuba babexokiswe ngusathana. Babuyeka bonke ubugqwirha kwindawo yabo. Kwanomthengisi weziyobisi waba ngumKristu waza wayeka ukuthengisa iziyobisi. Iinkokeli zelali zaqala ukuhlangana ukuze zithandaze rhoqo kusasa ngentsimbi yesine. Bacela uxolo baza bacela uThixo ukuba athabathe indawo yabo. Yaye uThixo wayiva imithandazo yabo! Abantu ababedla ngokugula bayeka ukugula. Imithi eyayingenasiqhamo yaqalisa ukuvelisa iziqhamo, yaye ulwandle lwaluzaliswe ziintlanzi apho ngaphambili zazimbalwa.

Komnye ummandla bekungekabikho ntlanzi kangangeminyaka engama-55 ngenxa yokuba ityhefu yonakalisa amanzi. Emacaleni komlambo, kwakungekho zityalo. Kwadibana wonke umntu elalini ukuze avume izono zookhokho bakhe aguquke kubugqirha. Bacela uThixo ukuba abaxolele. Kangangeentsuku, babesiza phambi koThixo baze balile. Wonke umntu weza nezinto zakhe zobugqirha aze azitshabalalise. Ngenxa yoko, uThixo wawaphilisa amanzi abo, aza azala ziintlanzi. Nomhlaba owawusecaleni komlambo waphiliswa waza waqalisa ukuvelisa izityalo ezininzi.

Ezixekweni, kwabakho iinguqulelo ezininzi. Iicawe zazidibana rhoqo ukuze zithandazele izixeko zazo. Bacela uxolo ngendlela ababephathana ngayo ngaphambili. Izixeko zaqalisa ukutshintsha. Ngaphambili abantu babengancumi, kodwa ngoku bayancuma. Kwancipha ulwaphulo-mthetho, ubuhlwempu, abangqiba nabantwana abahlala ezitratweni. Abantwana baqalisa ukuya esikolweni. Uqoqosho lwaphucuka, baza abakhenkethi babuya.

Kwangaxeshanye, abantu ababezama ukuthatha urhulumente ngexesha lobhukuqo-mbuso baphoswa entolongweni. Iintolongo yayiziindawo ezingenathemba. Kodwa iicawa zaqalisa ukungena ezintolongweni. Ekuqaleni kwakunzima. Amabanjwa ayenentiyo enkulu kuwo, kwaye ayenqwenela ukuziphindezela kwabo baphanzisayo amacebo abo okuthabatha ulawulo. Babengekakulungeli ukuxolela. Kodwa uThixo washukuma, yaye amabanjwa aguquka aza aba ngamaKristu. UThixo wabazalisa ngethemba novuyo olukhulu! Abantu ababedlula babebava abantu beculela uThixo iingoma zonqulo entolongweni—kwakuvakala ngathi kusecaweni!

Fundani eyesi-2 yeziKronike 7:14.

Ukuqokumbela

UYesu wasifela emnqamlezweni. Ngokukholwa kuThixo nokumlandela siba ngamaKrestu. Njengoko siqhubeka silandela uThixo, simthobela, ubomi bethu kufuneka buguquke. Akufunekanga sihlale kwintlupheko kunye nokwaphuka. Endaweni yoko uThixo uthembise ukusisikelela, kodwa kuphela xa simthobela. Njengakwibali laseFiji, njengoko siguquka, sibuya esonweni, size sifune ukuthobela uThixo, sifanele silubone utshintsho. Oko

akuthethi ukuba asinakuze sijamelane neengxaki—sisaphila kwihlabathi elinesono, neliqhekekayo. Kodwa ubomi bethu ngokubanzi kunye noluntu kufuneka lutshintshe.

- Loluphi uhlobo lotshintsho olubonileyo kwindawo ohlala kuyo njengoko abantu besiza kuKristu? (*Zinike ixesha lokubulela uThixo ngolu tshintsho*).

Kwizifundo ezimbalwa ezilandelayo siza kujonga ngakumbi imithetho kaThixo. Emva koko siza kujonga indlela uSathana asixokisa ngayo aze azame ukusigcina sihlwempuzekile nendlela inyaniso kaThixo enokusikhulula ngayo.

Isifundo 2: Sifanele Sibe Ngamagosa Endalo

lingcamango eziphambili

1. UThixo waxelela abantu ukuba balawule, basebenze baze banyamekele indalo. Oku kukuba nobudlelwane obulungileyo kunye nendalo.
2. Kufuneka sisebenzise ubuchule bethu ekulawuleni nasekulawuleni indalo, singasebenzisi kakubi okanye silawulwe yindalo.

Uluhlu lwematheriyali

1. Izinto ezibonwayo—iiseti ezi-2 okanye ezi-3 zaMakhadi Okudala (amakhadi ali-18 iseti nganye; kufuneka aprintwe aze acandwe)
2. Amanye amakhadi angenanto
3. Ingxowa yamanzi
4. Ilaphu lokucoca amanzi
5. Iphepha elikhulu lokubhala isicwangciso

Intshayelelo

Imiyalelo yoMququzeleli: Beka ingxowa yamanzi kwigumbi kwindawo apho ingayi konakalisa nantoni na njengoko iphuma ngaphandle kodwa apho abafundi baya kuyibona khona. Yenza umngxuma omncinci kwingxowa kwaye ushiye amanzi ephuma ngelixa uqala isifundo. Qinisekisa ukuba umngxuma mkhulu ngokwaneleyo ukuze amanzi aphume ngokukhawuleza ngokwaneleyo ukuze atsale umdla wabafundi. Qala isifundo kwaye ugqibezele lo mzekelo xa umntu eqaphela amanzi.

Xa umntu ephawula ngamanzi aphuma engxoweni mxelele ukuba akukho nto unokuyenza. Vumela abafundi ukuba banike iingcebiso ngento enokwenziwa. Ukuba akukho bani unikelela amacebiso ngokukhawuleza ngoko mbuze, ‘Ngaba ikho into onokuyenza?’

INGXOXO YEQELA ELIKHULU

- Kwenzeka ntoni?
- Ubucinga ntoni xa ndisithi ‘akukho nto ndinokuyenza’ ukunqanda ukuvuza kwamanzi?
- Zeziphi izinto ezimbi ngezenzekile ukuba besingawanqandi ukuphuma kwamanzi?

UTHixo usixelela kwakwisahluko sokuqala seBhayibhile ukuba sibe nobukhosi—okanye sibe ngumlawuli—kwindalo yakhe. Kwesi sifundo, siza kuhlolisisa loo ngxelo.

Ibali

Imiyalelo yoMququzeleli: Fundela iklasi eli bali lilandelayo.

AmaIndiya angamaPokomchi aphakathi kwabona bantu bahlwempuzekileyo kwelona phondo lihlwempuzekileyo laseGuatemala. Kwiminyaka emininzi eyadlulayo, abavangeli basemazweni beza ukuza kushumayela nokutyala iicawa. Abaninzi basePokomchi bamamkela uKristu, kodwa iindawo abahlala kuzo zahlala zihlwempuzekile. AmaKristu aselula aguqukayo afumana ithemba ngekamva, kodwa akukho themba lanamhlanje. Enyanisweni, babelindele ukufa ngokoqobo ukuze babushiye ubomi obulusizi emhlabeni baze baye kuba noYesu ezulwini.

Oku kwaqalisa ukutshintsha xa uArturo, umfundisi oselula, weza kusebenza phakathi kwamaPokomchi. Wafundisa abefundisi abangafundanga basePokomchi iBhayibhile. Njengoko babefunda, wayebacacisela indlela uThixo afuna sisebenzise ngayo imigaqo nemithetho eseBhayibhileni kubomi bethu bemihla ngemihla.

Ingxaki eqhelekileyo phakathi kwePokomchi yayikunqongophala kweendawo ezifanelekileyo zokugcina izityalo ezivuniweyo. Ngokufuthi, amafama angathathi ntweni ayevuna isivuno esihle, kodwa aye atyelwe ziimpuku ngaphambi kokuba abantwana bawo banikwe ukutya. UArturo wabuza abalimi, 'Ngubani okrelekrele, nina okanye ziimpuku?' Abalimi bahleka baza bathi, 'Ziimpuku.' UArturo wabuza, 'Ngaba nilawula iimpuku okanye ziimpuku ezilawula ubomi benu?' bavuma ukuba iimpuku zibalawule bona neentsapho zabo. Bakuthatha ukutya, akwabikho mntu ubanqandayo. Iimpuku, kungekhona abantu, zagqiba ngento enokutywa ziimpuku.

Emva koko, uArturo wababonisa ukuba iBhayibhile yathi amadoda nabafazi bafanele balawule indalo. Wabakhumbuza ukuba uThixo wayebasikelele ngokudala ngenxa yokuba benziwe ngokomfanekiso wakhe. Ayefanele asebenzise ubuchule awayebunike nguThixo ukuze athobele umgaqo wokulawula indalo, angavumeli indalo ukuba ibalawule.

AmaPokomchi agqiba kwelokuba kufuneka enze ngokuvisisana neBhayibhile aze aqalise ukulawula iimpuku. Bakha iindawo zokugcina iimpuku ekutyeni kwazo. Emva kokuba ukutya kukhuselwe kwiimpuku zaqalisa ukonela iintsapho zabo.

Yiba NguMntu Ozisa Utshintsho

INGXOXO YEQELA ELIKHULU

Funda uLuka 7:11-17.

Eli bali lenzeka xa uYesu nabafundi bakhe bedibana nomhlokokazi kumngcwabo wonyana wakhe. Abafundi bakaYesu banemincili kuba besanda kubona ummangaliso. Umhlokokazi nesihlwele somngcwabo bayalila.

- Kwenzeke ntoni kweli bali?

Imiyalelo yoMququzeleli: Sebenzisa **IZIBONISI EZIBONWAYO** uYesukunye namakhadi oMngcwabo ukuphonononga iimbono eziphambili esinokuzifunda ngomntu ozisa utshintsho.

Zi-7 izinto uYesu awazenzayo ukuze abe ngumntu ozisa utshintsho. Makhe sibone ukuba zazizintoni:

1. **UYesu wambona lo mhlolokazi.** Kwakukho abantu abaninzi kweso sihlwele. Abafundi bakaYesu babenemincili ngenxa yommangaliso ababesandul’ ukuwubona. Noko ke, uYesu wambona ephakathi kwesihlwele. Ukuba siza kuba ngabantu abazisa utshintsho, kufuneka sibe ngabantu abaqaphelayo abanye. Kufuneka siqinisekise ukuba sibona abantu ngabanye, hayi isihlwele nje.
2. **Intliziyo yakhe yavelana naye.** Ukuba sifuna ukuzisa utshintsho, kufuneka sibe novelwano. Kufuneka sibe ngabantu abantliziyo zaphukileyo xa sibona iimfuno zabanye. Ngokunjalo siyeka ukubona kwaye siyeke ukukhathala. Senza ntoni xa sibona umntu osweleyo kwindawo esihlala kuyo? Senza ntoni xa sibona umama onomyeni oshiye intsapho okanye utamkhulu nomakhulu beshiywe begcina abantwana abancinci? Ngaba sinovelwano? Cela uThixo akunike uthando olungakumbi kuluntu lwakho. Mcele ukuba akubonise abantu ekuhlaleni njengoko ebabona.
3. **Wanikeza amazwi okhuthazo.** Ngokufuthi abantu bafuna umntu oza kubanyamekela nokubakhuthaza. Kulula ukucinga ukuba sifuna izibonelelo zokunceda abantu ngokwenene kodwa ngokufuthi abo bafuna uncendo bafuna ngokwenene ukuba kubekho umntu oza kuba nabo aze abakhuthaze.
4. **UYesu wachukumisa ibhokisi yomngcwabo.** Xa uYesu wenza oku, wenza into eyayingalunganga ngokwenkcubeko yakhe. AmaYuda ayekholelwa ukuba ungaze uchukumise ibhokisi, okanye uya kuba yinqambi. UYesu wayekulungele ukuba ngongahlambulukanga ukuze ancède umntu othile. Kufuneka sizimisele ukuzifaka emngciphekweni kwaye singcole ukuze sincède abantu. Abantu basenokuthetha ngathi okanye bangasithandi, kodwa kufuneka senze oko uThixo asibizele kona.
5. **Wathandaza.** Kukho amandla elizwini likaThixo nasemthandazweni. Xa uYesu ethandaza umntu wavuswa ekufeni. Ungaze ulibale ukuthandaza phantsi kweemeko ojamelene nazo. Ziphe ixesha lokuthandazela

abantu. Yenza oko ukholelwa ukuba uThixo ngokwenene unokutshintsha imeko kwaye uzikhathalele zonke iintlobo zeemfuno. Fundisa abantu ukuthandaza ukuze bawazi amandla kaThixo.

6. **Kwabakho isiphumo.** Umfana wavuswa ekufeni. Sifanele sibe neziphumo zomsebenzi wethu. Ukuba ufuna ukunceda, qala ngezinto ezincinci onokuzenza lula. Xa uphumelele, abantu baya kuba nemincili, kwaye abantu abaninzi baya kukulungela ukubandakanyeka. Ekugqibeleni uya kukwazi ukwenza izinto ezinzima ngakumbi.
7. **UThixo wazukiswa.** Ekugqibeleni uzuko malubuyele kuThixo. Ngalo lonke ixesha uqinisekise ukuba xa yonke into sele igqityiwe nguThixo nguye odunyiswayo.

Ibali likaMama uNicole

Imiyalelo yoMququzeleli: Yabelana ngeli bali phambi kokwahlula ngamaqela amancinci ukuze nixoxe.

UMama uNicole uhlala eDemocratic Republic of Congo (DRC). Emva kokuthatha inxaxheba kuqeqesho lwe-TCT, uMama uNicole waziva ekhokelele ekubeni enze uvandlakanyo lwendawo yakhe ukuze aqonde ukuba abahlolokazi nabantwana babo baphila njani na. Kolu luntu, abahlolokazi abanandawo ekuhlaleni kwaye bambalwa abanokukhetha ukufumana umvuzo. Ngaphandle kwendoda yokubathethelela, ngokunjalo baxhatshazwa ngabanye. Abaninzi bayazibulala yaye bashiyeka bethengisa ngomzimba ukuze nje batye. Njengoko uMam' uNicole wayetyelele la mabhinqa, wafumanisa ukuba uninzi lwabantwana lwalungayi esikolweni kuba lwalungakwazi ukuhlawula iindleko zesikolo. Wakhetha akuphawula oku abahlolokazi abali-10 ababeswele kakhulu. Phakathi kwabo babenabantwana abangama-40.

UMama uNicole waqalisa ukufundisa eli qela labahlolokazi ukwenza isepha. Icawa yakhe yaqokelela inkongozelo ukuze iboleke abafazi imali yokuthenga izinto zokwenza isepha. Eli shishini lokwenza nokuthengisa isepha lenze ukuba bonke abahlolokazi bafumane imali eyaneleyo yokuhlawula izinto ezisisiseko ezifana nokutya. Kodwa kwakunganelanga kuMama uNicole. Wayefuna ukufumana indlela yokuba abantwana babahlolokazi baye esikolweni. Ukuze afumane imali yokuncedisa ngemali yesikolo, waqalisa indawo yokulima izityalo—etyala imbewu waza wayinyamekela de ibe zizithole ezazinokuthengiswa nge-\$1enye. Wayeqeshe indoda esisithulu nesisimumu kwindawo yokunyamekela abantwana, yaye olunye ulutsha lwasecaweni lwalumsebenzela ukuze afumane imali eyongezelelweyo. Waqeqesha olu lutsha ukulima iibhanana yaye, ngoncedo lwalo, lwaseka imithi yebhanana engama-50 kwintsimi yecawa. Indawo yokulima kunye nemithi yebhanana yenza inzuzo eyaneleyo yokuhlawula imali yesikolo kubo bonke abantwana babahlolokazi.

INGXELO NGEMVA KWELIBALI

Imiyalelo yoMququzeleli: Emva kokuba amaqela enike iimpendulo, jonga la manqaku alandelayo.

Izifundo esinokuzifunda kuMama uNicole:

- Kufuneka sibe nentliziyo yokunceda abantu size sikulungele ukuncama ixesha lokwenjenjalo.
- Kufuneka sithathe ixesha ukwakha ubudlelwane nabantu kwindawo yethu abafuna uncdo. Kufuneka sityelele rhoqo ukuze sakhe intembeko ebantwini.
- Kufuneka sibamamele abantu. Abantu abaninzi abakwiimeko ezinzima bafuna nje ukuvakalelwa kukuba abantu bayabakhathalela yaye bayabathanda. Ukuba baziva bekhathalelwe ngoko baya kuba lula ngakumbi ukumamela iingcebiso. Kufuneka siqinisekise ukuba asinasimo sengqondo sokugweba kodwa isimo sengqondo esifuna ngokwenene ukunceda. Ukuba abantu baziva ukuba uyabagweba, abayi kuba lula ukwabelana nawe.

- Kufuneka size neembono ukunceda abantu babone iindlela ezintsha abanokwenza ngazo izinto. Amaxesha amaninzi abantu abayazi indlela yokutshintsha ubomi babo. Abahluphekileyo banokuziva ngathi abanakukwazi ukutshintsha imeko yabo kwaye ngokulula baya kunikezela ngokuzama ukuba nobomi obahlukileyo. Bafuna umntu okulungeleyo ukusebenza kunye nabo kwaye abanike imibono malunga nento abanokuyenza ukutshintsha ubomi babo.
- Kufuneka sizimisele ukusebenza ukuze izimvo zenzeke. UMama uNicole wayebandakanyeka ecaweni, wafundisa ukwenza isepha, watyala imbewu, waza waqeqesha ulutsha. Akazange abaxelele nje abantu ukuba benze ntoni; wayenenxaxheba ngokukhuthuleyo ekubancedeni baqalise.
- Kukulungele ukuqala kancinci. Ukwenza isepha akuzange kuhlangebezane nazo zonke iimfuno kwaye kulungiswe zonke iingxaki ababenazo abahlokokazi. Kodwa yaba sisiqalo sotshintsho olukhulu. Ngamanye amaxesha kufuneka sisebenze inyathelo ngenyathelo kwaye imihla ngemihla ukunceda abantu. Musa ukulindela ukuba abantu benze utshintsho olukhulu ngokukhawuleza. Banike amanyathelo okuqala alula abanokuthi baqale ngawo, abanokuthi bawafezekise kwaye bazive bephumelele. Xa abantu bephumelele kwinto encinci, baya kukulungela ngakumbi ukuzama into enkulu.
- Utshintsho luthatha ixesha. La mabali enzeka ekuhambeni kwexesha.

Iqela Elincedayo

Ngamanye amaxesha kuba nzima ukucinga ngeengcinga zokunceda abantu. Enye indlela yokukwazi ukuba neembono ezininzi kukuqala iqela lokunceda. Eli isenokuba liqela labantu abahlangana kanye ngeveki kuba benomnqweno wokunceda abantu. Bangathandazela kunye abantu abancedayo ngamnye baze babelane ngazo naziphi na iindawo abafuna izimvo zokunceda ukuzisa utshintsho. Lilonke iqela liya kuba nako ukucinga ngeengcinga ezininzi kunomntu omnye. Ungalibali ukucela uThixo ukuba akunike ubulumko.

INGXOXO YEQELA ELINCINANE

USathana lixoki! Kodwa INdumiso 119:160 ithi ngoThixo, 'Onke amazwi akho ayinyaniso. Yonke imithetho yakho yobulungisa ingunaphakade.'

Ilizwi likaThixo liyinyaniso esinokusoloko siyithemba. Noko ke, uSathana nguyise wobuxoki. Kwasekuqaleni wayexoka, kwaye usaqhubeka exoka nanamhla. USathana ufuna sibe ngamahlwempu kwaye silambe. Siyilelwe ukusebenza; UAdam wasebenza ngaphambi kokuwa (Genesis 2:15). Umsebenzi yinxalenye yesidima sethu kunye nendlela esinokumzukisa ngayo uThixo (Efese 4:28; Kolose 3:23)

Sazalwa sihlupheka, yaye siya kufa sihlwempuzekile.

UThixo uya kusiikelela ukuba siyamthobela (Duteronomi 30:15-16; Yohane 14:23).

Sihlwempuzekile kangangokuba akuyomfuneko ukuba sinikele. Abanye abantu bafanele basinike

Kwanawo amahlwempu akaxolelwanga ekupheni. (Marko 12:41-44; 1 Kumkani 17:7-14). Abantu baseMakedoni (abona bantu bangamahlwempu) banikela ngexesha likaPawulos (Roma 15:26). Kwincwadi kaMalaki uThixo uxelela abantu ukuba abasikelelwa ngenxa yokuba bengambeki uThixo kuqala. Ubaxelela ukuba bamvavanye baze babone okwenzekayo ukuba baqalisa ukunikela njengoko eyaleleyo (Malaki 3:8-12). Kufuneka siphe, siqonda ukuba uThixo usinike yonke into yaye ukulungele ukusinika yonke into esiyidingayo.

UThixo uzikhathalele zonke iinkalo zobomi bethu (1 Korinte 10:31). Zonke izinto zaphulwa ekuweni (KwabaseRoma 8:22), kwaye ufuna ukuxolelanisa zonke iinkalo zobomi bethu kuYe (Kolose 1:19-20).

UThixo ufuna kuphela ukuba sibashumayeze abamelwane bethu—akuyomfuneko ukuba sinyamekele iintswelo zabo zokwenyama.

UThixo usixelele ukuba sibathande abamelwane bethu. Xa echaza izimvu neebhokhwe, uyasikhumbuza ukuba uthando lubonelela ngokutya, amanzi, nekhushi (Mateyu 25:31-46). Xa wayebuzwa ukuba ngubani ummelwane wethu, uYesu wabalisa ibali lomSamariya wadibana nomntu angamaziyo owayenzakele endleleni waza wamnika uncedo lwezonyango (Luka 10:25-37).

Akukho bantu baphakamileyo nabaphantsi ebukumkanini bakhe (Galati 3:26-28). Udale umntu ngamnye ngokwendlela afuna ngayo kwaye unenjongo ekhethekileyo ngomntu ngamnye (Efese 2:10).</p>

Impembelelo yobuxoki bukaSathana

INGXOXO YEQELA ELIKHULU

Kwisifundo esidlulileyo, siye safumanisa ubuxoki obuninzi obuthethwa nguSathana. Ubuxoki bukaSathana bunokuba nempembelelo enkulu kubomi bethu.

Funda eli bali lilandelayo:

Kwiindawo ezininzi esasisebenza kuzo, abantu babehamba ngeenyawo ukuya kukha amanzi emlanjeni. Kuxhomekeka kwilali, bahamba ukuya kutsho kwiikhilomitha ezi-5. Babephupha benamanzi ezilalini zabo; babedibana baze bathandazele ukuba uThixo abaphe amanzi, kodwa akukho mbutho owakhe wemba amaqula. Ngoko baqhubeka behamba besiya emlanjeni.

Ngomnye unyaka enye yeecawe yayijonge kwimephu yasekuhlaleni (eyayizoba kwiModyuli yesi-3) yaza yaziva ngathi uThixo wayebaphembelela ukuba bembe baze babone ukuba bangawabetha na amanzi. Benjenjalo ke. Kwakushushu kakhulu, ngoko mntu ngamnye wayenokugrumba malunga nemizuzu eli-15 kuphela ngaphambi kokuba anyuke aze adlulele komnye umntu. Kodwa ngabantu abangama-20-30 abancedisayo, ibingengomthwalo omninzi kuye nawuphi na umntu omnye. Ekupheleni kosuku, babe begrumba amanzi. Bamangaliswa! Kwimpelaveki elandelayo bamba elinye iqula baza bamba neline. Umntu ngamnye kwakufuneka asebenze imizuzu eli-15 kuphela kwaye, malunga nosuku, kwavela iqula.

Ezinye iilali zayiva le nto yenzekayo zaza zaqalisa ukugrumba amaqula. Bafumana namanzi. Namhlanje kukho amaqula angaphezu kwama-200 kuloo mmandla, uninzi lwawo oluye lwaphuculwa ukutyhubela iminyaka njengoko iicawa zazinobuncwane obungakumbi.

Kangangeminyaka—izizukulwana—abantu babefuna iqula. Babethandazela iqula. Kanti ke iqula lalizakuthathai u-suku olunye. Yintoni eyabathintelayo ekubeni babe nequla? Yayingekuko ukukwazi kwabo; emva kokuba begqibe ukugrumba balawule ngokulula. Yayingekuko ukuba babesonqena; yayingabantu abasebenza nzima. Yayiziinkolelo zabo. Babekholelwa ngokupheleleyo ukuba amaqula afuna ukugrunjwa ngabantu bangaphandle ngobuncwane obuninzi. Ngoko izizukulwana zazilindele iqula, xa isisombululo sasikumsebenzi wosuku nje kuphela.

- Linkolelo eziphosakeleyo zabachaphazela njani abantu?

- Yintoni eyabangela utshintsho?
 - Ukukulungela ukumthobela uThixo.

Imiyalelo yoMququzeleli: Nceda iklassi ibone ukuba uThixo wayeyixelele ukuba yombe—kungekhona oko kwakuza kwenzeka. Kwakufuneka bathobele nangaphambi kokuba iinkolelo zabo zitshintshe. Kwakungokumamela uThixo nokumthobela okwathi boyiswa ubuxoki yaye uluntu lwabo lwatshintshwa.

Jonga kwikhadi ngalinye lobuxoki kwakhona. Kubuxoki ngabunye, cinga ngomahluko phakathi komntu obukholelwa ubuxoki nomntu okholelwa kwinyaniso kaThixo. Umzekelo, inombolo 1 – umsebenzi sisiqalekiso. Ukuba umntu ukholelwa ukuba umsebenzi usisiqalekiso akayi kusebenza nzima. Baza kugqiba ukusebenza xa sele benokutya okwaneleyo ngaloo mini. Abayi kukonwabela ukusebenza kwaye baya kuhlala bekhangela iindlela zokwenza umsebenzi omncinci kangangoko. Noko ke, ukuba umntu ukholelwa ukuba umsebenzi yinxalenye yesidima sethu nendlela esinokumzukisa ngayo uThixo, uya kusebenza nzima. Ngenxa yokusebenza nzima kwabo baya kuba nako ukufumana ngaphezulu. UThixo ukhathalele kuphela izinto zokomoya.	<i>Besiya kuzityeshela ezinye izinto— umsebenzi, usapho, impilo, iingxaki zasekuhlaleni— ukugxila emthandazweni, kwiintshumayelo, njl.</i>	UThixo uzikhathalele zonke iinkalo zobomi bethu.	<i>Besiya kufuna ukwazi intando yakhe ngomsebenzi wethu, usapho, impilo kunye noluntu lwethu. Njengoko sithobela, zonke iinkalo zobomi beziya kufana ngakumbi nangenjongo kaThixo. Abanye baya kububona ubomi bethu obulungileyo baze bafune ukuba nabo.</i>
UThixo ufuna kuphela ukuba sishumayele kubamelwane bethu— akuyomfuneko ukuba sikhathalele iintswelo zabo zenyama.	<i>Besiya kushumayela ivangeli kodwa singakhathali ngeemfuno zenyama. Sasidla ngokuxelela abantu ukuba uThixo uyabathanda, kodwa babedla ngokungasikholelwa.</i>	UThixo usixelele ukuba sibathande abamelwane bethu.	<i>Sasiza kuhlalangezana neentswelo zokwenyama. Abantu babeza kuva uthando lukaThixo kwaye bavuleleke ngakumbi ekuveni ivangeli.</i>

Asikwazi ukutshintsha ubomi bethu ngaphandle kwemali evela komnye umntu.	<i>Sasilinda singenzi nto. Besiya kuba nentlupheko/ingqondo yokuxhomekeka. Akukho nto yayiza kutshintsha.</i>	Njengoko sisebenzisa oko uThixo asinike kona size sisikelele abanye, uya kwandula ke ukusisikelela.	<i>Siya kuba nesisa kwaye senze kangangoko sinako ukusikelela abanye. Siya kufumana iintsikelelo zikaThixo.</i>
Abanye abantu bangcono kunabanye.	<i>Asizami ukutshintsha. Asibakhathaleli abo babi kunathi.</i>	Wonke umntu wenziwe ngokukhethekileyo nguThixo.	<i>Besiya kuphatha umntu ngamnye ngothando. Besiza kubona ukuxabiseka kwabo nezinto abanazo, hayi iingxaki zabo kuphela.</i>
Umyalezo wevangeli uchaphazela kuphela ubomi bethu basemoyeni.	<i>Asizami ukutshintsha. Sasiza kuhlala sinjalo ngokwasemzimbeni, ngokwasengqondweni nangokwentlalo. Sasiza kuhlala sihlwempuzekile.</i>	UYesu wafa ukuze axolelanise zonke iinkalo zobomi, kungekuphela nje izinto zokomoya.	<i>Besiya kuzama ukuqonda indlela uYesu afuna sikhule ngayo ngokwasemzimbeni, ngokwasengqondweni, nasentlalweni nangokomoya.</i>

INGXELO NGEMVA KWEBALI

Khawufan' ucinge ukuba luluphi utshintsho obuya kulubona kwindawo ohlala kuyo ukuba wonke umntu ebekholelwa inyaniso yaye akaxoki.

- Ngaba indawo ohlala kuyo ingaba ngcono okanye ibe mbi?
- Ngaba indawo ohlala kuyo ibiya kuba ngendlela uThixo afuna ukuba ibe ngayo okanye ngaphantsi?

Njengeklasi, masichithe ixesha sithandazela ukuba uThixo aphule amandla obuxoki kwindawo yethu kwaye ancede iingqondo zethu zizaliswe yinyaniso.

Sibususa Njani Ubuxoki?

INGXOXO YEQELA ELIKHULU

Yohane 8:31-32: *UYesu wathi kumaYuda awayekholiwe kuye, 'Ukuba nithe nahlala emfundisweni yam, noba ngabafundi bam, benyaniso. Niya kuyazi inyaniso, yaye inyaniso iya kunikhulula.'*

- Siyazi njani inyaniso?
- Iza kwenza ntoni inyaniso? (Siyakukhululwa entwenini?)

Ukuba sifuna ukukhululeka kubuxoki bukaSathana, siyayifuna inyaniso evela kuThixo. UThixo uthembise ukuthumela amaKrestu uMoya wenyaniso, oya kusikhocelela kuyo yonke inyaniso. (Yohane 16:13). Simele sithandazele ukuba uThixo asibonise inyaniso. Yaye simele sichithe ixesha sifunda iBhayibhile ukuze siqonde inyaniso kaThixo.

Ukucingisisa nokuSebenza

Siye sajonga iinyaniso ezininzi ezibalulekileyo namhlanje. IBhayibhile ithi inyaniso iya kusikhocelela kubuxoki bukaSathana. Kodwa oko kwenzeka kuphela xa siyisebenzisa. Akwanelanga ukuva inyaniso—kufuneka siyithobele ukuze sibone uThixo eqalisa ukusisikelela.

Zeziphi iinyaniso ezi-1-2 ofuna ukuzisebenzisa kule veki? Izenzo zakho ziya kwahluka njani xa uthobela iinyaniso? Thandaza ucele uThixo akuncede ukhumbule inyaniso kwaye umthobele.

Isifundo 7: Ukuqonda indawo ohlala kuyo

Lingcamango eziphambili

1. Ukubonelela ngolwazi malunga noluntu.
2. Ukunceda iqela ukuba licinge ngeendlela uluntu olunokuthi lutshintshe ngazo.

Izinto eziphathekayo

1. Imali eliphepha encane—eqhelekileyo, yendawo
2. Amaphepha amaninzi amakhulu angabhalwanga

Intshayelelo

UMSEBENZI WEQELA ELIKHULU

Inyathelo elilandelayo lokuzisa utshintsho kuluntu lwethu kukujonga ngokusondeleyo kuluntu lwethu kwaye siqonde ngokucacileyo ukuba zeziphi iingxaki esijongene nazo kunye namathemba ethu ngekamva.

Imiyalelo yoMququzeleli: Khetha inqaku elincinci ngemali yendawo, into apho wonke umntu aya kuqhelana nayo. **Lungisa le mibuzo ingezantsi ukuze ibe malunga nemali oyisebenzisayo.** Kuya kufuneka ufunde imibuzo kunye nenqaku kwangaphambili ukuze wazi iimpendulo. Kulo msebenzi, phakamisa inowuthi ngokufutshane, uze ucele iqela ukuba liphendule le mibuzo ilandelayo ngentloko, njengoko belibonile eli nowuthi amaxesha amaninzi ngaphambili. (Kunokwenzeka ukuba abayi kukwazi ukuphendula imibuzo emininzi ngokuchanekileyo.)

Siza kudlala umdlalo omncinci ngoku: (Baxebele ukuba yiyiphi inowuthi yemali onayo)

1. Inani u-1 livela kangaphi kwinqaku?
2. Igama elithi “enye” livela kangaphi kwinqaku?
3. Iphi inombolo yesiriyali kwinqaku?
4. Ngowuphi umbala inombolo yesiriyali?
5. Sesiphi isilwanyana esisemva kwinqaku?
6. Senza ntoni isilwanyana?
7. Bangaphi abantu abavela ngemva kwenowuthi?
8. Ngawaphi amagama avela kufutshane nomphezulu ongasemva kwenowuthi?

Ngamanye amaxesha siqhelene kakhulu nento kangangokuba asisayiboni ngokwenene. Injongo yale misebenzi ilandelayo kukusinceda ukuba sibone uluntu kwakhona kwaye sicinge ngendlela esinganceda ngayo.

Lintsapho

UMSEBENZI OMKHULU WEQELA

Imiyalelo yoMququzeleli: Zoba iibhokisi ezi-3 kwiphepha elikhulu. Bhala iibhokisi ezithi ‘zihlupheke kakhulu’, ‘zihlwempuzekile’, ‘zityebile’. Cela iqela lichaze ukuba lunokuba njani usapho olulingana neleleyibhile nganye. Bacele ukuba bacinge ngezinto ezinje:

- | | |
|--------------------|-------------|
| • Uhlobo lwezindlu | • Impahla |
| • Ukutya | • Imfundo |
| • Imfuyo | • Umsebenzi |
| • Umhlaba | |

Nje ukuba oku kugqityiwe, cela ikhosi ukuba iqikelele ukuba yeyiphi ipesenti yabantu kwindawo abahlala kuyo abakwiibhokisi nganye kwezi-3.

Umzekelo:

Isityebi	Ubuhlwempu	Ihlwempu kakhulu
Indlu ezinzileyo, ininzi yerayisi kunye nempahla ecocekileyo. Banomabonakude, isithuthuthu, iDVD player, iinkomo, isofa. Kukho ukutya okwaneleyo izidlo ezinenyama ka-3 ngosuku. Abantwana abalambanga xa besiya kufunda.	Banendlu kuphela, akukho nto ngaphakathi. Ukutya nje okwaneleyo isidlo esinye ngosuku. Iimpahla ezimbalwa nje. Batya amagqabi ebhatata.	Indlu iyawa. Badla isidlo esinye ngosuku – irayisi enetyuwa. Ayikho enye into abanokuyidla.

Uluntu

UMSEBENZI OMKHULU WEQELA ELIKHULU OKANYE ELINCINANE

Imiyalelo yoMququzeleli: Cela abathathi-nxaxheba basebenze kunye ukwenza imephu yelali yabo. Ukuba kukho abantu abangaphezulu kwe-6 yohlula ngamaqela ama-2 kwaye iqela ngalinye lenze imephu.

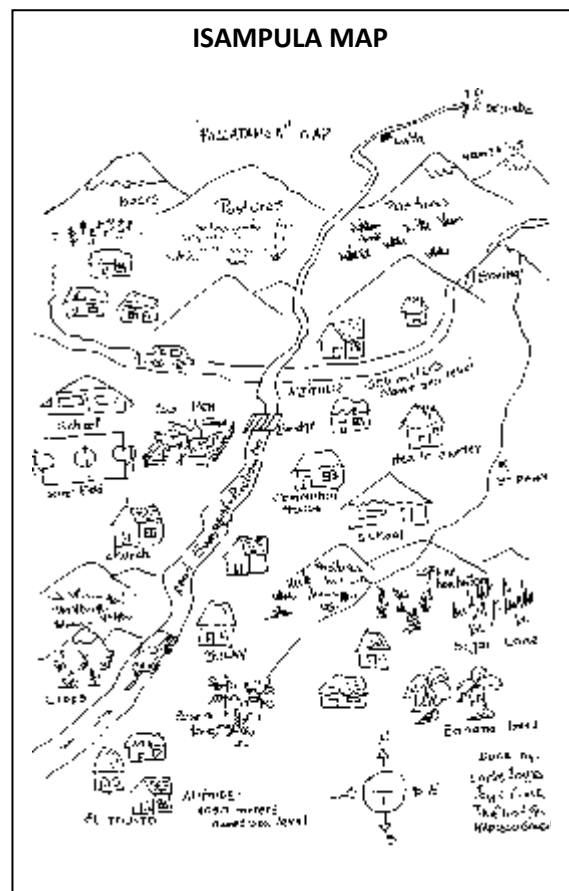

Ukuba uqeqesha abantu abasuka kuluntu olungaphezulu kwesinye, yahlula iklasi ukuze iqela ngalinye liphume kwindawo enye.

Emva kokuba imephu igqityiwe, cela abathathi-nxaxheba bamakishe oku kulandelayo:

- Apho abantu bafumana khona amanzi okusela
- Izikolo, izibhedlele, iimarike, amaziko ezempilo, njl.
- Iindawo zonqulo ezibalulekileyo
- Iindawo apho abantu bafumana amafutha okupheka
- Iindlela ezibalulekileyo
- Iindawo zokuzonwabisa

Nje ukuba iimephu zigqitywe, bacele bathelekise iimephu ukubona ukuba yintoni eyahlukileyo kunye nento efanayo. Ukuba basuka kwindawo enye ke banokufumana imibono omnye komnye ngezinto ekusenokwenzeka ukuba beziphosiwe.

Zakuba zigqityiwe ezi mephu, bavumele bachithe ixesha elithile bethandaza, becela ukuba kwenziwe ukuthanda kukaThixo kwindawo abahlala kuyo. Babuze ukuba bacinga ukuba uThixo angathanda ukuba uluntu lwabo lubonakale njani kwiminyaka eli-10 ukususela ngoku. Zoba imephu yesibini ebonisa ukuba uluntu lwabo luya kujongeka njani kwiminyaka eli-10 ukusuka ngoku ukuba uThixo uyaluzisa ulonwabo. Bacele ukuba bachaze ukuba bongeze ntoni na kwimephu nokuba kutheni. Zitsintshe ntoni—zihluke ngaziphi iindlela kwimephu yokuqala? Bhala utshintsho ngalunye olungundoqo ephepheni elinokuthi ligcinwe yicawe.

Kwisifundo esilandelayo siza kwenza umthambo wokusinceda sicinge ngendlela yokusebenzisa imephu ukucwangcisa izenzo zothando. Kodwa xa sigqiba masimamele ibali eliyinyani lecawe enye nento abayenzayo.

Icawa ye-14th Street yayiyicawa encinci, eyodwa. Akukho nto yayitshintshile kwiminyaka eyi-40 edlulileyo, kwaye babengenakucinga ukuba kutheni nantoni na iya kutshintsha ngoku. Njengoko babezoba imaphu yabo, babethandabuza. Ngaba kwakulungile ukuquka izinto ababezifuna—njenge-trektara? Kuthekani ngezinto ezinkulu ababevakalelwa kukuba ngurhulumente kuphela onokuzenza—njengebhulorho? Ekubeni urhulumente wayeyitshutshisa icawa, kwabonakala ngathi lincinane ithemba lokuba baya kuze benze njengoko icawa yayibacela. Nangona kunjalo, ngokukhuthazwa ngumqeqeshi wabo we-TCT, icawa yongeza la maphupha angenakwenzeka kwimephu yabo "echumayo".

Baxhoma imaphu eludongeni lwecawa. Rhoqo ngeecawa babethandazela ukuba uThixo azise utshintsho ekuhlaleni. Kanye ngenyanga babehlanganisana kwimephu baze bacele uThixo ukuba ababonise into abamele bayenze ngokulandelayo. Babekulangazelela ukuqalisa ukwakha isakhiwo sesikolo, kodwa uThixo wayengathi uthi, "Hayi ngoku". Omnye uveze ukuba unetrektara emephini, bathandazela itrekta. Njengoko babethandaza, uThixo wababonisa ukuba babenendlela kuphela eya emasimini, ukuze itrektara ingafiki apho. Ngoko icawa yagqiba ekubeni ivuleke indlela yokuhamba. Ngaloo nyaka wonk' ubani kuloo lali wakwazi ukuvuna okungakumbi ngenxa nendlela ebanzi, babenokusebenzisa isithuthuthu esinenqwelo ebotshelelwe ukutsala izityalo endaweni yokusithwala emqolo. Yonke loo dolophana yayinombulelo kakhulu kangangokuba yanika icawa enye yengeniso eyongezelekileyo eyayifumanayo—eyanele ukuthenga itrekta!

Baqhubeka behlanganisana, bethandaza, bejonga imephu yabo yaye becinga ukuba bafanele benze ntoni ngokulandelayo. Bagqiba imisebenzi emininzi ababeyinqwenela—amaqula, izindlu zangasese, nokulungiswa kwezindlu. Bade baqalisa nemisebenzi ababengazange bacinge ukuba banokuyenza, kuquka ukwakha ibhulorho. Kodwa asikabikho isikolo. Kwathi ngequbuliso ngenye imini kwafika urhulumente waza wakha isikolo esihle! Okumangalisayo kukuba, yakhiwe kanye kwindawo ababeyizobe kwimephu yabo! Emva kweminyaka emi-5, nawo wonke umsebenzi wabo onzima nokwandisa kukaThixo, babegqibe yonke into ekwimephu. Babesele besiya kwimimandla eselumelwaneni ukuze babancede nabo.

Ukuqokumbela

Kunokuba nzima ukukholelwa ukuba siya kuze sibone utshintsho oluzobileyo kwiimephu zakho. Kodwa siyazi ukuba uThixo unamandla, yaye ufuna ukusisikelela njengoko simthobela!

Njengecawe ekhankanywe ngasentla, sifuna ukuba ugcine imaphu yakho. Yixhome edongeni kwaye uthandaze veki nganye ukuba uThixo akuncede azise utshintsho kwindawo ohlala kuyo. Cela uThixo akubonise into onokuyenza ngokulandelayo. UThixo unokukothusa ngendlela akuqondisa ngayo. Khumbula, iindlela zakhe zisoloko zilungile kuneendlela zethu.

Phambi kokuba sihambe, masithathe imizuzu embalwa sithandazele iimephu zethu, sicele uThixo ubulumko bendlela yokuzisa utshintsho esifuna ukulubona. Kwisifundo esilandelayo, siza kwenza isicwangciso sendlela yokuqalisa ukuzisa utshintsho kuluntu lwethu.

Isifundo 8: Amanyathelo Alandelayo

Lingcamango eziphambili

Ukuqala ukwenza isicwangciso sokuzisa utshintsho kuluntu lonke.

Izinto eziphathekayo

1. Iintlobo ezi-3 zeentsapho zesifundo esidlulileyo
2. Iimephu ezenziwe kwisifundo esidlulileyo
3. Amakhadi angenanto
4. Isiphawuli, usiba, okanye ipensile

Intshayelelo

Kwisifundo esidlulileyo, sijonge iimfuno ezininzi kwiindawo esihlala kuzo. Inyathelo elilandelayo lokuzisa utshintsho kuluntu lwethu kukugqiba ukuba yeyiphi ekufuneka siqale ngayo kuqala.

Yeyiphi iprojekthi ebalukileyo kuqalwe ngayo

UMSEBENZI WEQELA ELIKHULU OKANYE ELINCINANE

Imiyalelo yoMququzeleli:

1. Khawukhangele emva kwiindidi ezi-3 zeentsapho—ezityebileyo, ezihlwempuzekileyo nezingamahlwempu kakhulu. Cinga ngotshintsho ongathanda ukulubona lusenzeka kwiintsapho. Bhala nganye ekhadini.
2. Jonga emva kwiimephu zasekuhlaleni kwaye ubhale utshintsho olufunyenwe apho kumakhadi.
3. Dibanisa onke amakhadi kunye. Cela ikhosi ukuba ijonge kuzo kwaye ijonge ukuba akukho naziphi na iinguqu abanethemba lokuzibona ezingekadweliswa.
4. Hlela onke amakhadi abe ziimfumba ezi-3: eyona nto ibalulekileyo, ibalulekile, ayibalulekanga kangako.
 - Kumakhadi abaluleke kakhulu beka amanqaku ama-3 ekhadini.
 - Kumakhadi abalulekileyo beka amanqaku ama-2.
 - Kumakhadi angabalulekanga kangako beka inqaku eli-1.
5. Dibanisa amakhadi kwakhona uze ucele ikhosi ukuba iwahlele ngendlela ekulula ngayo ukusombulula ingxaki. Kulula ukusombulula, kunjalo, kwaye kunzima kakhulu ukusombulula.
 - Kumakhadi alula ukusombulula beka amanqaku ama-3.
 - Kumakhadi ka-so-so beka amanqaku ama-2.
 - Kubunzima bokusombulula amakhadi beka uphawu olu-1.
6. Fumana onke amakhadi anamanqaku ama-6 (okanye ama-5 amanqaku ukuba akukho makhadi anamanqaku ama-6). Olu lutshintsho olubaluleke kakhulu kwaye kulula ukulufikelela.
7. Kula makhadi khetha e-1 okanye ama-2 ofuna ukuqala ngawo.

Ukucwangcisa Isenzo Sothando

Ngoku ukuba sikhetha into yokuqala (izinto) esifuna ukugxila kuyo, isinyathelo esilandelayo kukucwangcisa isenzo sothando!

Imiyalelo yoMququzeleli: Khokela iqela ukuba lenze isicwangciso, lilandela amanyathelo okucwangcisa isenzo sothando kwiModyuli 1. Ekupheleni kwesi sifundo, kufuneka babe nesenzo esicwangcisiweyo kunye nexesha elimiselweyo lokuyenza.

Amanyathelo okuCwangcisa Isenzo Sothando

1. Thandaza - *Thandaza ukuba uThixo anike izimvo kwaye akhokele iingcinga kunye namagama eqela.*
2. Khetha umsetyenzana – Sele siyichongile imfuno esifuna ukuqala ngayo. Ngaba uThixo unike naziphi na iingcamango ngendlela yokuhlangabezana nale ntswelo njengoko sasithandaza? *(Nikelani ixesha lokwabelana nize nixoxe. Vumelanani ngento uThixo akhokela iqela ukuba lenze.)*
3. Lungiselela isicwangciso – *Xoxa ngale mibuzo ilandelayo. Ukuba kunokwenzeka, cela umntu ukuba abhale iimpendulo ukuze ungalibali.*
 - Uza kwenza ntoni?
 - Zeziphi izixhobo ozifunayo? Uza kuzifumana phi ezo zinto? Ziza kufunyanwa ngubani?
 - Uza kunceda bani?
 - Ngubani oza kuthabatha inxaxheba ekuncedeni? Ngubani oza kumema wonke umntu?
 - Uzakuyenza ngowuphi umhla?
4. Thandaza – *Cela uThixo akuncede ugqibezele iprojekthi kwaye andise iziphumo. Thandaza ukuba igama lakhe lizukiswe.*

Inyathelo lesi-5 kukwenza umsebenzi obuwucwangcise. Kwixesha elizayo xa sidibana, siya kwenza inyathelo lesi-6—sinike ingxelo!

Ukuqokumbela

Sivuyisana nawe! Siyigqibile iNyaniso eSekelwe kwiNguqu yeModyuli 3! Siye safunda iinyaniso ezininzi ezibalulekileyo, akunjalo? Njengoko uhamba, khumbula ukuba ayikokuva inyaniso kuphela okuzisa inguqu, kodwa ukuthobela. Njengoko uThixo esibonisile iinyaniso kunye nokuba yintoni isenzo soThando esinokuyenza kwindawo yethu, ngoku kufuneka siphume sithobele. Ndijonge phambili ekubeni kunye nani kwixesha elizayo kwaye ndive oko uThixo akwenzileyo njengoko uye wasebenzisa ezi zifundo!
